

Technology Tutor

Build relationships with diverse groups of adults and seniors while improving your teaching skills! We are looking for volunteer tutors to work with small groups of adults/seniors who are working on learning basic tech skills (computers, smartphones, sending emails, etc.). Residents have shared with us that learning how to use smart phones, computers, and tablets, is one of their greatest needs, and something that helps them feel more both more independent and connected to their community. Tutors provide group instruction to learners based on their needs and skill level, and work with them to make progress towards their digital learning goals.

Position Requirements:

- Age 16 or older (parental consent needed for those under 18)
- Basic understanding of computers (MS Word, Excel, email, browsing the internet, social media use, etc) & smartphones
- Successfully pass a background check

Time Commitment: We request tutors commit to either

1. A one time technology workshop for 2+ hours
2. An ongoing weekly tech workshop at one building for 4-8 weeks

Why Volunteer with Bellwether?

- Give back to a local community of people from diverse backgrounds by helping to fill gaps in local social service needs.
- Volunteer in a wide variety of settings and positions. From tutoring children, to being a senior companion, to performing music, Bellwether serves a wide variety of populations and can accommodate a lot of unique and engaging volunteer opportunities.
- We appreciate our volunteers and show that through ongoing recognition, personalized support for every volunteer, training and professional development opportunities for ongoing volunteers.
